Art Unit: 3634

1. The abstract of the disclosure is objected to because of the inclusion of legal phraseology "means" and "said". Correction is required. See MPEP § 608.01(b).

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 4-7 recite a functional statement which contains a means clause, wherein, it is not clear if the means clause "button means" is intended to be a positively recited element.

Claim 2 recites "loop means" which is indefinite for it is a means clause devoid of a statement of an intended function.

Claim 3, line 2 refers to buttons but does not indicate that the buttons are an element of the button means.

Claim 3, lines 3-4 recite "the top edge of the means" for which there is no antecedent basis.

Claim 4, line 2 recites "tab top suspending means" which is indefinite for it is a means clause devoid of a statement of an intended function.

Claim 5, line 3 recites "the closed position" for which there is no antecedent basis.

Claim 6, lines 4-7 recite a functional statement which contains a means clause, wherein, it is not clear if the means clause "loop means" is intended to be a positively recited element.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by O'Brien. O'Brien discloses the claimed invention including loops 26, buttons 22, and tabs 20,66.

4. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Brontman, Gordon '508 and '918, Koch, Kupchunos, May, Bussert, King.
